5.	Date of Implementation	01/09/2013-31/08/2015
6.	Tenure of the project	2 years
7.	Total grant allocated	1,10,000/-
8.	Total grant received	75,000/-
9.	Final expenditure	1,13,502/-
10.	Title of the project	Socio-Economic study of Scavengers - A case of Scavengers in Nashik Municipal Corporation.
11.	Objective of the project	<ol style="list-style-type: none"> <li>1) To study standard of living Scavengers in NMC.</li> <li>2) To find out literacy level among the Scavengers in NMC.</li> <li>3) To find out impact/existence of superstition among the Scavengers in NMC.</li> <li>4) To find out the impact of addiction and how it has affected the life of Scavengers in NMC.</li> </ol>
12.	Whether Objectives were achieved( gives detail)	<p>The minor research project on Scavengers in NMC. The research gets,78.47% Scavengers have been working tradionly and they belong to the particular casts i.e. the Bhangi, the Mahar, the Matang, the Mang, The Garudi.</p> <p>The standard of living of Scavenger in NMC is improving 72%. Family income is 25000 to 55000 and going on.</p> <p>58% Scavengers using heath facility provided by NMC hospital. It means the influence of superstition is lowering down.</p>
13.	Achievements from the	<ul style="list-style-type: none"> <li>• The Scavengers working in NMC have been living a</li> </ul>

	project	<p>neglected and downtrodden life and they are living in the scattered manner.</p> <ul style="list-style-type: none"> <li>• It is observed that the proportion of education level has been constantly increasing among the Scavengers now a days 76% Scavengers are liberated.</li> <li>• The NMC provides the required equipments like topali, handglaus, foot stockings, mask, the vehicles to carry the garbage etc.</li> <li>• The Scavengers live in the very backward area in the tiny,small(46%) ouses(39%) Scavengers have medium houses. 15% Scavengers have large of good houses.</li> <li>• 69% Scavengers are not cautions about their future. They do not believe in future.</li> <li>• The present research has created that the children among than that about education. They are not proud of their parent's work. They think that they should work in good scruice.</li> </ul>
14.	Summary of the findings( In 500 words)	<p>The present study was undertaken to the study of Socio-Economic study of Scavengers in NMC in Nashik city. Total 102 Scavengers selected out of 1993. Only 5% Scavengers has been taken this study/ research.</p> <p>For this present research primary and secondary sources have been used. In order to collect data sampling method has been under consideration in order to provide equal representation to all cases working as Scavengers. The analysis is based on question and interview. As a secondary data previous research works, govt. report, committees, minutes, encyclopaedia has taken into account for authentic presentation.</p> <p>Class-wise division is very traditional and its deeply include the Bhangi's, the Mahar, the Chambhar, the Vadar, the Garudi, Mang Garudi. In this NMC 78.48% Scavengers are came from the abuse the particular cast class i.e. above casts. These classes are still looked down and are identified by their works which are mean or ignoble. Consequently, this class division which has given rise to social, economical differences has not disappeared from Indian social system. This is cast based</p>

		<p>system has contributed for wide gaps and differences.</p> <p>in NMC advanced medical facilities are available in the recent days. It is also cautions about the health conditions of Scavengers. Hence, efforts are made to prevent the diseases than disposing and curing. The good quality shoes, boots, safely masks, hand glows, helmets are provided to them for safety. 58 % Scavengers from NMC seem aware about their health condition and their family member.</p> <p>The Scavengers of NMC have wages. Some members of families of Scavengers have their profession, some serves in private companies. They gets more income from private work. 72% family income is 25000 to 55000. It means tha standard of living of the Scavengers is improving/ under improvement in NMC. 86% Scavengers are addict of Alcohol, Smoking and Tobacco.</p>
15	Contribution to the Society ( give details)	<p>This research project is useful for Society. Society get awareness of cleanness. Cleanness is very useful for social health. Good social health is useful for national development. People view also changing about Scavengers. They gives respect, thus who are doing the cleanness workers. This is the new India, rising in the world.</p>
16.	Whether any PH.D. Enrolled/Produced out of the project	No.
17.	NO. of publications out of the project (please attach re- prints)	No.
